Dear Doctor Lederberg:

Ralph Dorfman has relayed to me your comments with respect to the report of the Animal Health Institute on the scientific applications of the Delaney Clause.

I understand further that Fred Holt of the AHI has forwarded to you, in response to your request, a copy of the July 19, 1973 Federal Register proposal relating to this subject area.

Because of my interest in this subject, as Syntex representative to the Regulatory Committee of the AHI, once you have had an opportunity to review the FDA proposal, I would appreciate very much receiving your comments.

Thank you.

Sincerely,

SYNTEX LABORATORIES INC.
